

SignComp's Commercial and Architectural Extrusion Systems deliver a wide variety of applications and their simplistic approach to production dramatically reduces labor costs.

Commercial Extrusions are engineered for flexible, rigid and aluminum face pylon and wall mount signage. They include Hingeable Retainers and Cabinets, Retro Frame Systems, Radius Corners, Divider Bars, Radius Ends and Vandal Covers.

Architectural Extrusions are engineered for a variety of post and panels, low profile, wall mount and monument signs as well as monolithic signage. Parts include Hingeable Retainers, Radius Ends, Unique Post and Panel Shapes, Interchangeable Message Panels and Dividers.

You can view SignComp's complete product line at www.signcomp.com. Just click on "Catalogs" then "Extrusions and Kits" and select the product line you would like to view. You can also link to their site through the Business Partners section on www.dixieneon.com.

**THE FOLLOWING PRODUCTS ARE

Dixie Neon and SignComp
Your complete source for Aluminum Extrusion
Framing Solutions and Channel Letter Raceways

No bubbles - No wrinkles with Air Advantage™

FDC Series 7133 is a gloss white, 2.4 mil. premium grade, high-performance vinyl designed for printing vehicle wraps, graphics, signage and decals requiring long-term durability—up to 7 years. It is available in 27" and 54" widths.

FDC Series 7233 is a 3 mil. intermediate calendered film designed for general purpose graphics, signage and decals requiring medium-term durability—up to 5 years. It is available in gloss and matte white and in 30", 54" and 60" widths.

Both Films Feature Air Advantage™, a repositionable, opaque adhesive which applies easily without bubbles or wrinkles. Graphics can be removed cleanly from most surfaces for up to two years. Series 7133 and 7233 are designed for use with Solvent and Eco-Solvent inks and offer conformability and clean removal.

FDC Premium Reflective Vinyl Film

Series 7300 is a 5.9 mil., gloss white, premium grade reflective film designed for printing permanent graphics, signage and decals requiring long term durability—up to 7 years. Best results are obtained when applied to flat surfaces and simple curves, however it may be used over rivets and corrugations with careful application. Series 7300 is suitable for Thermal Transfer, Solvent, Eco-Solvent, UV Inkjet and Screen Printing and is available in 24", 30" and 48" widths. It is an engineer grade film and meets ASTM D 4956 Type I standards.

**Dixie Neon will be closed on Monday,
May 31 in observance of Memorial Day**
